

THE R-2000* BUILDER ADVANTAGE

When it comes to constructing a comfortable and efficient home that is sensitive to our surroundings, no one does it better than an R-2000 certified builder. Knowledgeable in the latest construction techniques, energy-efficient features and environmentally friendly materials, R-2000 builders construct comfortable homes that benefit not only buyers and occupants, but also the world we live in.

R-2000 is a voluntary standard based on proven technology developed through a partnership involving the homebuilding industry and the Government of Canada. R-2000 builders provide their customers with better built houses that far exceed building codes. All R-2000 homes are evaluated, inspected and tested by independent third-party inspectors and are certified by the Government of Canada. The Office of Energy Efficiency of Natural Resources Canada supports the R-2000 standard as part of the ecoENERGY for Buildings and Houses initiative.

R-2000 BUILDERS

- R-2000 builders are industry leaders committed to building you an exceptional home.
- R-2000 builders must complete specialized training programs and are knowledgeable in improved building techniques.

* R-2000 is an official mark of Natural Resources Canada.

- R-2000 builders are licensed by the Government of Canada.
- R-2000 builders must meet the R-2000 standard, which is a series of strict technical requirements for energy efficiency, indoor air quality and environmental responsibility – a better way to build for you, the consumer.

EXCEPTIONAL VALUE AND COMFORT

- R-2000 is the premier energy efficiency label and is recognized worldwide.
- R-2000 homes feature improved indoor air quality, resulting in a healthier environment for you to live in.
- R-2000 homes are energy efficient, which translates into reduced operating costs for you, the homeowner.
- R-2000 homes are designed to conserve energy, water and other natural resources. In effect, your R-2000 home will be friendlier to the environment.
- R-2000 is the socially and environmentally responsible choice.
- An R-2000 home can offer you plenty of comfort and peace of mind, knowing that you made a good choice.
- R-2000 homes are backed by a quality assurance process that is unique in the industry.
